

Finn's Global Geography Challenge

Learning objective: To identify and describe human and physical geographical features, including land use, biomes, and settlement patterns.

Join Finn the dolphin on a global expedition! Read each question carefully. Use your geographical knowledge to circle the correct answer or provide the specific detail required. Good luck, explorer!

Answer Key: 1. A (Physical); 2. True; 3. Infrastructure; 4. B (Urbanisation); 5. False (It is a physical feature); 6. Climate; 7. C (All of the above); 8. True; 9. Tourism; 10. Settlement.

Word bank: Biome · Settlement · Infrastructure · Topography · Sustainable · Urbanisation · Erosion

1. 1. Is a meandering river a physical or human geographical feature? A) Physical* B) Human C) Neither D) Both (1 mark)

2. 2. True or False: Mountains are considered a physical feature of the landscape. (1 mark)

3. 3. What is the term for the basic physical and organisational structures needed for the operation of a society, such as roads and bridges? (1 mark)

4. 4. What is the process called when an increasing percentage of a population lives in towns and cities? A) Migration B) Urbanisation* C) Erosion D) Agriculture (1 mark)

5. 5. True or False: A motorway is a natural, physical feature. (1 mark)

6. 6. Which geographical factor most influences the type of biome found in a specific region? (1 mark)

7. 7. Which of these is a human-made geographical feature? A) A reservoir B) A terraced farm C) All of the above* D) None of the above (1 mark)

8. 8. True or False: Physical geography focuses on the study of the Earth's natural features and processes. (1 mark)

9. 9. If a village becomes a popular destination for visitors, what human-led industry is likely to grow there? (1 mark)

10. 10. What is the general term for a place where people establish a community to live? (1 mark)

Draw: Draw a cross-section of a landscape that includes at least three physical features (like a mountain, river, or forest) and three human features (like a bridge, a farm, or a village). Label each feature clearly.

Extension challenge: Greater Depth Challenge: 1. Explain why human settlements are often built near rivers. 2. Compare and contrast a rural village with a large city; what are the differences in their infrastructure? 3. Justify your answer: Why might climate change alter the physical geography of a coastal town? 4. What might happen if a new motorway was built through a protected national park? 5. Describe the impact of deforestation on a local biome. 6. If you were planning a new sustainable town, which three physical features would you look for in the landscape and why?
