

Finn's Amazing North American Adventure

Pack your bags and travel with Finn the Dolphin to discover the wonders of North America!

- North America is made up of many countries, but the three largest are Canada, the United States of America (USA), and Mexico.
- The Rocky Mountains are a very long mountain range that runs through the west of the continent.
- North America is surrounded by three big oceans: the Pacific Ocean to the west, the Atlantic Ocean to the east, and the Arctic Ocean to the north.
- The climate changes a lot across the continent, from frozen snowy lands in the north to hot, sandy deserts in the south.
- The Great Lakes are a huge group of five connected freshwater lakes found between Canada and the USA.

Did you know? Did you know? North America is the third-largest continent in the world! It stretches from the icy Arctic Circle in the north all the way down to the warm tropical forests in the south.
