

Finn's North America Fact-File

Learning objective: To identify and describe the key geographical features of North America.

Hello! Finn the dolphin is exploring the world and has reached North America. Use the map in your classroom and your textbook to help you fill in this fact-file. Write short sentences and use the word bank to help you spell the tricky words.

Word bank: continent · Canada · USA · Mexico · ocean · mountain · climate · Arctic

1. Location: North America is a large land mass called a _____. Name two countries found here: (2 marks)

2. Water: Which two oceans touch the coasts of North America? (2 marks)

3. Land: Describe one famous mountain range or landscape you have learned about in North America. (2 marks)

4. Climate: North America has different weather. What is the weather like in the north compared to the south? (2 marks)

Extension challenge: Draw a picture of one animal that lives in North America and write one sentence about where it lives.
