

Discovering Ancient China with Ellie the Elephant

Step back in time to explore the wonders of the East!

- The Ancient Chinese built the Great Wall to help protect their land from invaders.
- Ancient China was ruled by a leader called an Emperor, who lived in a grand palace.
- Many people lived and farmed near the Yellow River because the soil was very good for growing crops.
- Tea was first discovered in China and it soon became a very popular drink all over the world.
- Artists in Ancient China were famous for making beautiful, shiny pottery called porcelain.

Did you know? Did you know? The Ancient Chinese invented paper, the compass, and even fireworks! They also created a special fabric called silk from tiny silkworms.
