

Max the Monkey's Spooky Maths Flashcards

Learning objective: To practise addition, subtraction, and counting using Halloween-themed objects within 20.

Read the front of the card to solve the maths puzzle. Check the back to see if you are right! These cards help us practise counting, adding, and taking away.

Max has 5 orange pumpkins and 3 white ghosts. How many items does he have altogether?	Zara has 10 spider webs. She uses 4 of them for her art project. How many are left?
8 items	6 spider webs
If a bag of spooky sweets costs £7 and a mask costs £2, what is the total cost?	Kit sees 12 bats flying. 2 bats fly away. How many bats are there now?
£9	10 bats
Bea counts 6 black cats and 6 orange cats. What is $6 + 6$?	Pip has 15 spooky stickers. He gives 5 to his friends. How many stickers does he have now?
12	10 stickers
A toy skeleton costs £10. You have a £20 note. How much change would you get?	Nova finds 8 shiny stars and 7 twinkling moons. How many objects does she have in total?
£10	15 objects
There are 18 pumpkins in a row. A farmer takes away 8. How many are left?	Max has £4 and finds another £5 in his pocket. How much money does he have now?
10 pumpkins	£9
Is 14 greater than or less than 19?	Ellie has 20 spooky potions. She uses 10. How many does she have left?
14 is less than 19	10 potions
