

## Max's Rounding Mastery Flashcards

*Learning objective: To accurately round numbers up to 10,000,000 to the nearest 10, 100, 1,000, 10,000, 100,000, and 1,000,000.*

Use these flashcards to practise your rounding skills. Max the monkey thinks rounding is the best way to estimate totals during his jungle shopping trips. Read the front, try to calculate the answer, then check the back!

Round 4,562 to the nearest 10.

4,560

Round 12,845 to the nearest 100.

12,800

Round 34,902 to the nearest 1,000.

35,000

Round 145,670 to the nearest 10,000.

150,000

Round 782,100 to the nearest 100,000.

800,000

Round 4,499,999 to the nearest 1,000,000.

4,000,000

Max buys bananas for £2.56. Round this to the nearest £1.

£3

If a digit is 5 or more, what do you do?

Round up to the next digit.

If a digit is 4 or less, what do you do?

Round down (keep the digit the same).

Round 9,999 to the nearest 100.

10,000

Round 550,550 to the nearest 1,000.

551,000

Why do we round numbers?

To make calculations simpler and to estimate totals quickly.
