

Max’s Statistics Masterclass: Year 5 Maths Word Mat

Learning objective: To understand and apply key statistical vocabulary to interpret and construct data representations accurately.

Key Vocabulary

Max the Monkey has organised his data collection vocabulary into three logical categories. Use these definitions to help you analyse line graphs, tables, and timetables.

Compare and con...	Explain why it is ...	If a line graph sh...
In a data set of £...	Why might a scie...	Identify the poten...
