

Max's Mathematical Subtraction Flashcards

Learning objective: To practise subtraction of two-digit and three-digit numbers, including money and column method concepts, at an expected Year 3 standard.

Read the front of each card to test your mental maths skills. Flip the card or look at the answer provided to see if you solved the puzzle correctly!

What is the difference between 85 and 42?

43

Max has £75. He spends £23 on a new puzzle book. How much money does he have left?

£52

Calculate $150 - 60$ using mental maths.

90

If you subtract 18 from 50, what is the answer?

32

Complete the subtraction: $99 - 47$.

52

When using the column method, what do you do if the bottom digit is larger than the top digit?

You exchange a ten for ten ones.

Max had £9.50. He spent £3.20. How much change does he have?

£6.30

What is 200 minus 150?

50

Solve $72 - 35$ using partitioning. (Hint: $72 - 30 = 42$, then $42 - 5 = ?$)

37

True or False: Subtraction is the opposite of addition.

True

Max has 120 marbles. He gives 40 to his friends. How many are left?

80

Calculate $64 - 28$.

36
