

Max's Invasion Games Tactics Planner

Learning objective: To identify and explain strategies and skills used in invasion games.

Max the monkey loves to solve puzzles. Use this sheet to plan how your team will work together in your next PE invasion game. Read each question carefully and write your answers in the boxes below. If you need help, look at the words in the word bank.

Word bank: attack · defend · space · pass · dribble · teamwork · score · goal

1. When your team has the ball, how will you create space to move forward? (Think about where your teammates are standing.) (2 marks)

2. What is one skill you will use to move the ball towards the goal? (e.g., passing or dribbling) (2 marks)

3. When the other team has the ball, what will you do to defend your goal? (2 marks)

4. Why is it important to talk to your teammates during the game? (2 marks)

Extension challenge: Draw a map of your favourite invasion game pitch. Use an 'X' for your team and an 'O' for the other team to show where you will stand when the game starts.
