

Max’s Electricity Word Mat

Learning objective: To understand and use key scientific vocabulary related to electrical circuits and components.

Key Vocabulary

Max the monkey has been busy building circuits! Use this reference mat to help you identify components and understand how electricity flows. The terms are grouped into three categories: Circuit Components, Electrical Properties, and Circuit Behaviour.

Circuit Compone... Explain the difference b...	Electrical Propert... Why is it important to u...	Circuit Behaviour If you add more bulbs to ...
