

# Nova’s Bright Ideas: Year 6 Light Vocabulary Mat

Learning objective: To understand and define key scientific vocabulary related to the properties of light and how we see.

Key Vocabulary

Use this vocabulary mat to help with your science investigations. Terms are grouped by how light travels, how we see, and how shadows are formed.

|                      |                        |                     |
|----------------------|------------------------|---------------------|
| Nova is stargazin... | If you look at a st... | Why does a piece... |
| Max is looking at... | In a bright room, ...  |                     |
