

Rosa's Spanish Number Adventure

Learning objective: To accurately recall and use Spanish cardinal numbers from 1 to 20, and identify patterns in tens up to 100.

Use these flashcards to practise your Spanish numbers. Rosa the parrot suggests saying the Spanish word aloud, then checking the English translation on the back. For an extra challenge, try to write the numbers as words without looking!

What is the number 1 in Spanish?

uno

What is the number 5 in Spanish?

cinco

What is the number 10 in Spanish?

diez

What is the number 12 in Spanish?

doce
