

Zara's Gallery of Great Artists

Grab your paintbrush and join Zara the Zebra on an adventure through the world of color and shape!

- Artists are people who use paint, pencils, or clay to share their ideas with the world.
- A portrait is a special kind of painting that shows the face and personality of a person.
- A landscape is a painting that shows the beauty of the outdoors, like hills, trees, or the sea.
- Artists mix different colors on a palette to find the perfect shade for their work.
- You can be an artist too by using your imagination to create something brand new!

Did you know? Did you know? Some artists painted pictures that look just like real life, while others used bold splashes of color to show how they were feeling inside! Every artist has a special way of seeing the world.
