

Zara the Zebra's Pattern Party

Learning objective: To identify, describe, and create patterns using colors and shapes.

Look at Zara the Zebra! She loves patterns. Can you color in the stripes on her coat and the geometric shapes around her using your favorite colors? Try to make a repeating pattern!

Colour this: A large, friendly cartoon zebra named Zara standing in the center. Zara has clear, thick black-and-white stripes on her body that are blank for the child to color. Surrounding Zara are various simple geometric shapes like circles, triangles, and squares floating in the air. The background is simple and clean, featuring a few tufts of grass and some large, simple flowers with dotted centres to encourage pattern-based coloring.

Steps:

1. Label the stripe on Zara's back.
2. Label a circle shape in the background.
