

Zara's Sketching Adventure

Learning objective: To develop fine motor skills and explore the art technique of sketching using lines and patterns.

Look at the picture of Zara the zebra sketching in the park. Use your pencils to trace the lines in her sketchbook. Then, add your own patterns to the grass and the sky. Use different colors to make your drawing bright and cheerful!

Colour this: A large, friendly zebra named Zara sitting on a grassy patch in a park. Zara is holding a small wooden pencil in her hoof and looking down at an open sketchbook resting on her lap. Inside the sketchbook, there are simple shapes like circles, triangles, and zigzag lines. Around Zara, there are soft outlines of a sun, a fluffy cloud, and a small flower. The drawing should have clear, bold outlines for children to color in, with plenty of space for them to add their own patterned details like spots on the grass or lines in the sky.

Steps:

1. Label the sketchbook in your picture.

2. Label the pencil that Zara is holding.
