

Zara's World Book Day Art Gallery

Grab your pencils and paints—let's bring our favorite stories to life with color and pattern!

- **Zara the zebra loves to see patterns everywhere; try drawing stripes or spots on your favorite book character.**
- **You can mix primary colors like red, yellow, and blue to make new colors for your book cover design.**
- **Using different textures like bumpy sponges or soft brushes can make your art look exciting and unique.**
- **World Book Day is a time to celebrate the wonderful stories we read and the adventures we take in our minds.**
- **Think about your favorite story; what does the main character look like, and what colors would you use to paint them?**

Did you know? Did you know? Every book has an 'illustrator'—that is a special artist who draws the pictures you see on the pages to help tell the story!
