

Add Sparkle with Adjectives!

Make your writing shine bright! Use adjectives to paint a picture with your words.

- An adjective is a word that describes a noun, like a person, place, or thing.
- Adjectives tell us about the color, size, shape, or texture of an object.
- Using adjectives helps the reader see exactly what you are imagining in your head.
- You can use adjectives to describe feelings, such as a 'happy' dog or a 'brave' lion.
- Example: Instead of saying 'The cat sat,' try 'The fluffy, ginger cat sat.'

Did you know? Did you know? Adjectives come from a Latin word that means 'to add'. Just like Pip the caterpillar adds leaves to his snack pile, adjectives add extra information to your nouns to make your sentences grow!
