

Finn's North American Adventure

Grab your map and join Finn the dolphin as we dive into the wonders of North America!

- North America is the third-largest continent in the world and is made up of 23 different countries, including Canada, the USA, and Mexico.
- The Rocky Mountains are a massive mountain range that stretches over 3,000 miles from Canada down through the United States.
- The continent is bordered by three vast oceans: the Arctic Ocean to the north, the Atlantic Ocean to the east, and the Pacific Ocean to the west.
- The Great Lakes, located on the border of Canada and the USA, form the largest group of freshwater lakes on Earth by total area.
- North America's human geography is very diverse, with large bustling cities like New York and Toronto contrasted by vast, open rural landscapes.

Did you know? Did you know that North America is the only continent that has every single type of climate? From the freezing Arctic tundra in the north to the steamy tropical rainforests in the south, this massive landmass has it all!
