

Florence Nightingale: The Lady with the Lamp

Learning objective: To identify a significant individual from the past and understand why they are remembered in history.

Read the facts about Florence Nightingale. Color in the picture of Florence holding her famous lamp. Use your imagination to color her Victorian dress and the hospital scene.

Colour this: A clear, bold-lined illustration of Florence Nightingale standing in a Victorian hospital ward. She is wearing a long, traditional 19th-century nurse's uniform with a white apron and a cap. In her right hand, she is holding a classic oil-style lamp with a bright flame. Behind her, there are simple iron-framed hospital beds with neat blankets. The floor is made of large, easy-to-color tiles. The scene should be warm and encouraging, with a star-filled window in the background.

Steps:

1. Label the lamp that Florence is holding in your picture.
2. Label the nurse's hat in your picture.
