

Max the Monkey's Division Flashcards

Learning objective: To understand and practice basic division facts and vocabulary for Grade 3.

Read the front of the card. Try to say the answer out loud. Then, flip the card to check if you are right. Max the Monkey wants to help you share things equally!

What does it mean to divide?	What is $12 \div 3$?
To share a total number into equal groups.	4
What is $20 \div 5$?	If you share 10 sweets between 2 children, how many does each get?
4	5
What is $8 \div 2$?	What is $15 \div 3$?
4	5
What do we call the amount left over when a number does not divide exactly?	What is $10 \div 10$?
A remainder.	1
What is $16 \div 4$?	If you have 6 apples and share them into 3 groups, how many in each?
4	2
What is $9 \div 3$?	What is $0 \div 5$?
3	0
