

Max the Monkey's Market Math

Learning objective: Recognize and know the value of different denominations of coins and notes.

Help Max the Monkey count his coins! Color the coins carefully and answer the questions below to show what you know about British money.

Colour this: A large, friendly monkey named Max sitting at a wooden market stall. On the table, there are several coins scattered: a 1p coin, a 2p coin, a 5p coin, a 10p coin, and a £1 coin. The coins should have clear outlines showing their circular shapes. Max is wearing a small waistcoat and pointing at the coins with a happy expression. The background shows a simple market stall canopy with some fruit baskets.

Steps:

1. Label the 1p coin and the £1 coin in your picture.
2. Circle the coin that has the highest value in your drawing.
