

Max's Multiplication Magic!

Master the Times Tables with Max the Monkey!

- **Multiplication is when we add the same number again and again.**
- **An array is a neat way to show multiplication using rows and columns.**
- **The answer to a multiplication sum is called the product.**
- **If you multiply any number by 1, the answer is the number itself.**
- **If you multiply any number by 0, the answer is always 0.**

Did you know? Did you know? Multiplication is just a speedy way to do addition! If you have 5 baskets with 3 apples in each, you could add $3 + 3 + 3 + 3 + 3$, or you can just say 5 times 3 equals 15!

Key vocabulary: product · multiply · times · groups · total · array
