

Max's Time-Telling Flashcards

Learning objective: To tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times.

Read the front of each card to practice your time-telling skills. Check the back of the card to see if you are correct. Can you help Max the monkey solve these time puzzles?

What is the name of the shorter hand on an analogue clock?	If the minute hand is pointing at the 6, what do we call this time?
The hour hand	Half past
If the minute hand is pointing at the 3, what do we call this time?	If the minute hand is pointing at the 9, what do we call this time?
Quarter past	Quarter to
How many minutes are in one full hour?	What time is shown if the hour hand is at 4 and the minute hand is at 12?
60 minutes	4 o'clock
How many minutes does it take for the minute hand to move from one number to the next?	If it is half past 2, where will the hour hand be?
5 minutes	Halfway between the 2 and the 3
How many minutes are in half an hour?	If the clock shows 12:45, which is the same as quarter to 1?
30 minutes	True
Max starts his math puzzle at 9 o'clock. He finishes at 9:30. How long did he spend working?	If you have a digital clock showing 08:15, how would you say this in words?
Half an hour	Quarter past eight
