

# Max the Monkey's Multiplication Mastery

*Learning objective: To practice and recall multiplication facts for the 2, 5, and 10 times tables as required by the Grade 1 Mathematics curriculum.*

Read the question on the front of each flashcard. Say the answer out loud or write it down on a piece of paper before checking the answer on the back.

|                                                                                                              |                         |
|--------------------------------------------------------------------------------------------------------------|-------------------------|
| Max the monkey has 3 bunches of bananas. Each bunch has 5 bananas. How many bananas does he have altogether? | What is $2 \times 8$ ?  |
| 15 ( $3 \times 5 = 15$ )                                                                                     | 16                      |
| If you have 4 groups of 10, what is the total?                                                               | What is $5 \times 5$ ?  |
| 40                                                                                                           | 25                      |
| Max sees 6 pairs of socks on the washing line. How many socks are there in total?                            | What is $10 \times 9$ ? |
| 12 ( $6 \times 2 = 12$ )                                                                                     | 90                      |
| Complete the sequence: 5, 10, 15, 20, ...                                                                    | What is $2 \times 12$ ? |
| 25                                                                                                           | 24                      |
| Max has 7 bags with 5 marbles in each. How many marbles does he have?                                        | What is $10 \times 3$ ? |
| 35                                                                                                           | 30                      |
| True or false: $2 \times 6$ is the same as $6 \times 2$ ?                                                    | What is $5 \times 0$ ?  |
| True                                                                                                         | 0                       |
