

Nova's Fall Discovery Journal

Learning objective: To observe and describe how living things change during the season of fall.

Follow the prompts below to write about your observations of nature. Use the word bank to help you write full sentences.

As the season changes to fall, Nova the owl notices that the woods are starting to look very different.

Word bank: because · change · color · deciduous · falling · temperature · cooler · leaves · crisp · ground

1. What happens to the leaves on the trees in fall? Start your sentence with: In fall, the leaves... (2 marks)

2. How does the air feel outside during the fall months? Start your sentence with: The temperature feels... (2 marks)

3. Why do you think the leaves change color? Start your sentence with: The leaves change color because... (2 marks)

4. What do you see on the ground under the trees? Start your sentence with: On the ground, I can see... (2 marks)

Extension challenge: Can you draw a picture of a tree in fall and label the colors you can see?
