

## Fall Adventures with Nova

*Learning objective: To identify and describe the changes that happen in the natural world during the season of fall.*

Color in the picture of Nova the owl enjoying the fall season. Once you have finished coloring, use the labels to identify the parts of the tree and the weather signs.

**Colour this:** A large, friendly-looking barn owl named Nova wearing a tiny knitted scarf, perched on the branch of a large oak tree. The tree has some leaves still attached and some swirling through the air. On the ground, there is a pile of crunchy, fallen leaves of different shapes (oak and maple) and a small acorn. In the top corner, draw a round, bright sun that is starting to set, showing that the days are getting shorter. Use clear, thick black outlines suitable for a Kindergarten student to color.

### Steps:

1. Label the part of the tree where the leaves are changing color.
2. Label the object on the ground that has fallen from the tree.
