

Nova's Habitat Flashcards

Learning objective: To identify and define key terms related to habitats and the natural environment.

Read the front of the card. Try to guess the answer. Then, look at the back to check if you are right! Use the word bank to help you.

What is a natural home for a plant or animal?

Habitat

What do we call the surroundings where an animal lives?

Environment

What is a special body part or behavior that helps a creature survive?

Adaptation

What shows how energy moves from one living thing to another?

Food Chain

What is an animal that hunts other animals for food?

Predator

What is an animal that is hunted and eaten by another?

Prey

What word describes animals that are active at night?

Nocturnal

What is it called when an animal hides by blending into its background?

Camouflage

What is a safe place that protects animals from weather or danger?

Shelter

What is a community of living things and their non-living surroundings?

Ecosystem
