

# Nova's Nutritious Guide to a Balanced Diet

*Learning objective: To identify the importance of a healthy, balanced diet and describe the basic functions of different food groups.*

Use this scaffold to help you write a report about nutrition. Remember to use formal, scientific language and refer to your food groups clearly.

To maintain a healthy body, it is essential for humans to consume a varied and balanced diet that provides the correct amount of nutrients.

*Word bank: essential · nutrients · balanced · energy · consequently · furthermore · specifically · in addition to · vitamins and minerals*
