

Nova's Seasonal Stargazing Quiz

Learning objective: To identify and describe the four seasons and the changes associated with weather and daylight hours.

Read each question carefully. Nova the owl wants to see how much you know about how the seasons change throughout the year!

Answer Key: 1. A (Spring), 2. True, 3. False, 4. B (Summer), 5. Winter, 6. C (Fall), 7. True, 8. B (Less), 9. True, 10. Spring. Each question is worth 1 mark.

Word bank: Spring · Summer · Fall · Winter · weather · deciduous · sunlight

1. Which season comes after Winter when new flowers begin to grow? A) Spring* B) Summer C) Fall D) Winter (1 mark)

2. True or False: The weather is often warmer in the Summer than in the Winter. (1 mark)

3. True or False: It snows in the UK during every single season. (1 mark)

4. In which season do we have the longest days and the most sunlight? A) Spring B) Summer* C) Fall D) Winter (1 mark)

5. During which season do many trees lose their leaves as the weather gets colder? (1 mark)

6. What is the coldest season of the year? A) Spring B) Summer C) Winter* D) Fall (1 mark)

7. True or False: The amount of daylight changes throughout the year. (1 mark)

8. In Winter, do we have A) More or B) Less daylight than in Summer? (1 mark)

9. True or False: A lamb being born is a sign of Spring. (1 mark)

10. Which season comes before Summer? (1 mark)

Draw: Draw a picture of a tree. Show how it looks different in two different seasons, like Summer and Winter.

Extension challenge: Nova the owl wants you to keep a weather diary for one week. Write down if it is sunny, cloudy, or rainy each day and draw a small picture to show the weather!
