

Nova's Amazing Guide to Space

Look up at the stars with Nova and discover our amazing Solar System!

- **The Sun is a star. It sits in the middle of our Solar System.**
- **There are eight planets in our Solar System that travel around the Sun.**
- **Earth is the third planet from the Sun. It takes one year to complete an orbit.**
- **An orbit is the path a planet takes as it moves around the Sun.**
- **The Moon is a natural satellite that moves around the Earth.**

Did you know? Did you know? The Sun is a giant star at the center of our Solar System. It is so big that all the planets could fit inside it more than once!

Key vocabulary: Sun · Orbit · Planet · Earth · Solar System
