Creating Amazing Characters!

Bring your characters to life with the magic of words!

- **Appearance: Use adjectives to describe what your character looks like, such as their hair, clothes, or height.**
- **Personality: Think about how your character acts. Are they kind, grumpy, shy, or bold?**
- **Expanded Noun Phrases: Use two adjectives before a noun to make your writing extra descriptive, like 'the fluffy, golden-furred lion'.**
- **Actions: Show, don't just tell! Instead of saying someone is nervous, write about them tapping their feet or biting their lip.**
- **Feelings: Describe how your character feels inside using powerful verbs and adjectives.**

> *Did you know? Did you know? Authors often think about what a character keeps in their pockets or bags to help describe their personality! A character who carries a magnifying glass might be curious, while someone who carries a crumpled map might be a brave explorer.*
