

What is a Community?

Be a Kind Neighbour: Build a Better Community!

- A community is a group of people who live, work, or play in the same area.
- Being kind to your neighbours helps everyone feel happy and safe at home.
- Sharing your time or helping with chores makes our local area a better place.
- We show respect when we listen to others and include everyone in our games.
- Communities are strong when people look out for one another every single day.

Did you know? Did you know? A community is like a giant puzzle. Every person is a unique piece. When we all fit together and help each other, we create a beautiful picture of friendship and safety for everyone!

Key vocabulary: community · kindness · neighbour · support · belonging · respect
