Mastering Verbal Reasoning with Kit the Fox

Think like a Fox: Unravel the Clues, Spot the Patterns, and Solve the Word Puzzle!

- **An analogy shows how two things are related. For example: 'Foot is to walk as hand is to hold.' The relationship is: Body part is to action.**
- **Synonyms are words that have the same or similar meanings, such as 'happy' and 'cheerful'.**
- **Antonyms are words that have opposite meanings, such as 'bright' and 'dull'.**
- **When looking at letter sequences, always check the alphabet position to see if letters are moving forward or backward.**
- **A prefix is added to the start of a word (like 'un' in 'unhappy') and a suffix is added to the end (like 'ful' in 'helpful').**
- **Always read the instructions carefully—sometimes the secret to the puzzle is hidden in the very first sentence!**

Did you know? Did you know? Verbal reasoning is like being a word detective! It helps you understand how words are connected to each other, just like how Kit the Fox uses his cleverness to find the hidden patterns in his forest puzzles.

Key vocabulary: Analogy · Synonym · Antonym · Sequence · Prefix · Suffix
