Class 3 Social Studies / History Assessment: The Roman Empire and Britain

Learning objective: To demonstrate understanding of the Roman invasion of Britain, daily life in Roman times, and their lasting influence on our lives today.

Read each question carefully. Use your historical knowledge to provide clear and accurate answers. Remember to use full sentences where required.

In 43 AD, the Romans, led by Emperor Claudius, arrived in Britain with a large army. They built roads, towns, and villas. They changed how people lived, worked, and travelled. Our friend Ellie the Elephant has been studying these times and has found many clues about how the Romans lived, from the food they ate to the colourful tiles they used to decorate their floors.
