

Class 4 PSHE: Being Part of a Community

Learning objective: To understand the meaning of community, identify roles within a community, and recognise the importance of contributing to the common good.

Read the front of each flashcard and try to answer it before checking the back. Use these cards to test your knowledge about how we live and work together.

What is a community? A group of people who live in the same area or share common interests, goals, and values.	What does it mean to be a 'good citizen'? It means acting in a way that is helpful and respectful to others, and looking after your community.
Give two examples of people who provide a service to our community. Examples include teachers, doctors, librarians, police officers, or refuse collectors.	What is 'diversity' in a community? Diversity means having a variety of different people with different backgrounds, cultures, and ideas living together.
Why is 'cooperation' important in a community? It helps people work together to solve problems, achieve goals, and make the community a better place to live.	How can Max the monkey help his local community? By using his maths skills to help organise a local charity event or by calculating how much food is needed for a community picnic.
What is a 'contribution'? An action or gift that helps to support or add to something, like volunteering your time or donating items to a food bank.	If a local charity shop sells a book for £2.50, why is this helpful to the community? The money raised can be used to support local services, help people in need, or fund community projects.
True or False: A community only includes the people who live in your house. False. A community includes your neighbours, local businesses, schools, and everyone in your town or city.	How can you show respect to someone in your community who is different from you? By listening to their ideas, being kind, and learning about their traditions.
What is one small way you can improve your local environment? By picking up litter, planting flowers, or being careful not to damage local parks.	Why is it important to support local shops instead of only buying online? It keeps money in the local area, supports your neighbours' livelihoods, and helps the local economy thrive.
