

Nova's Bonfire Night Adventure

Learning objective: To learn about the traditions of Bonfire Night and practise labelling.

Look at the picture of Nova the owl watching the night sky. Colour in the bright fireworks and the cosy bonfire. Use your best colours!

Colour this: A large, clear line drawing of Nova the barn owl wearing a warm woolly scarf, standing on a branch. Behind Nova, there is a large, crackling bonfire made of logs. In the dark sky above, there are three large, circular firework starbursts with trailing lines coming down. The scene should have simple, thick outlines for easy colouring.

Steps:

1. Label the bright firework in the sky.
2. Label the warm bonfire on the ground.
