

Celebrating Heroes: A Drawing Activity

Learning objective: To learn about significant figures in Black history by creating a commemorative portrait and timeline.

Follow the steps below to create your own tribute page for Black History Month. Use the word bank to help you label your work.

Draw: Draw a portrait of a hero in the centre of the page. Use a realistic or cartoon style. Ensure the background shows something related to their life, like books for an author or a map for an explorer. Use bright colours to show that they are an inspiration.

Label words: Legacy · Courage · Inspiration · Community · Change · Pioneer

Steps:

1. Step 1: In the space provided, draw a portrait of a person you admire. It could be a famous figure from history or someone in your own community. Write their name below.
2. Step 2: Draw a 'thought bubble' above your person. Write one word inside the bubble that describes their main strength (e.g., Bravery).
3. Step 3: Draw a small timeline at the bottom of the page with two important events from their life.
4. Step 4: Label your drawing using at least two words from the word bank provided.
