# Exploring Our World with Finn the Dolphin

*Learning objective: To identify and locate the world's seven continents and five oceans using geographical knowledge and map skills.*

Use your geographical knowledge to answer the questions below. Finn the Dolphin has been travelling the globe and needs your help to map his discoveries!

Finn the Dolphin has been swimming through all five of the world's oceans. He started in the chilly Arctic, travelled down past the coasts of Europe and Africa, and eventually crossed the vast Pacific to reach the shores of South America. His map helps him track his long journey across the seven continents.

*Word bank: Africa · Antarctica · Asia · Atlantic · Arctic · Australasia · Europe · Indian · North America · Pacific · Southern · South America*

**1. List the seven continents of the world. Ensure you use a capital letter for each one. (7 marks)**

**2. Finn is currently swimming in the ocean located between Africa and the Americas. Which ocean is he in? (1 mark)**

**3. Which continent is known for having no permanent human population and is located at the very bottom of the globe? (1 mark)**

**4. Explain the difference between a continent and an ocean in your own words. (2 marks)**

**5. If you were to travel from the United Kingdom (located in Europe) to Asia by land, which continent would you have to pass through? (1 mark)**

**Draw: Draw a simple map of the world. Label the five oceans correctly and draw Finn the Dolphin swimming in the ocean that is closest to your own country.**

*Extension challenge: Imagine you are planning a trip around the world. Choose three continents you would like to visit and write a short paragraph explaining which ocean you would have to cross to travel between two of them.*
