A Journey to Ancient Greece with Ellie

Step back in time to explore the wonders of the ancient world!

- **The Ancient Greeks lived in city-states, which were independent cities with their own laws and governments, such as Athens and Sparta.**
- **Athens is famous for creating the first democracy, where citizens had the right to vote on important decisions for their city.**
- **Greek architecture is well-known for tall, stone columns called pillars, which helped support large temples like the Parthenon.**
- **Ancient Greek mythology tells exciting stories about powerful gods and goddesses who were said to live on the top of Mount Olympus.**
- **The Greeks were brilliant thinkers who studied maths, science, and philosophy to better understand the world around them.**

> *Did you know? Did you know? The very first Olympic Games were held in 776 BC! Athletes competed in running, wrestling, and jumping, all to honour the king of the gods, Zeus. Winners were awarded a simple wreath made from olive branches instead of gold medals.*
