Max’s Mental Maths Challenge

Learning objective: To improve mental addition, subtraction, multiplication, and division skills using number bonds and place value.

Read the front of the card and try to solve the sum in your head. Flip the card to check if you are right! Max the monkey suggests using number bonds to make the maths easier.

What is 45 + 20?	65
What is the difference between 80 and 30?	50
