

Our Diverse Community: A Portrait of Inclusion

Learning objective: To understand that diversity makes our community stronger and to identify the positive traits that make each individual unique.

Use this sheet to illustrate a scene that celebrates the unique differences and shared values within a group. Think about how Nova the owl, Max the monkey, and their friends share their individual talents to help one another.

Draw: Create a vibrant scene featuring Nova, Max, and Pip in a park. Draw them collaborating on a 'Community Mural'. Use bold colours and patterns to show how different ideas (represented by different shapes or styles on the mural) come together to make one beautiful picture. **Style:** Illustrative and inviting, leaving plenty of space for labels and annotations.

Label words: Diversity · Inclusion · Respect · Empathy · Unique · Collaboration · Kindness

Steps:

1. Step 1: Draw Nova, Max, and Pip in the centre of your page working together on a project. Label which character is using their specific strength (e.g., Max using maths to measure).
2. Step 2: Around your central characters, draw three symbols that represent different cultures or backgrounds (such as traditional patterns, a flag, or a musical instrument). What do these represent?

3. Step 3: Label your drawing with at least three words from the word bank to show how the characters are demonstrating inclusion.
4. Step 4: Imagine a new character joins the group. Draw them in the corner and write one 'unique talent' they bring to the team.
5. Step 5: Write one sentence explaining why a group is stronger when everyone is included, even if they have different ideas or backgrounds.
