Celebrating Chinese New Year with Nova and Pip

Join the celebration! Discover how families welcome the Spring Festival with light, colour, and joy.

- **The date changes every year because the festival follows the lunar calendar, which is based on the cycles of the moon rather than the solar year.**
- **Families often clean their homes thoroughly before New Year's Day to 'sweep away' bad luck and make space for good fortune to arrive.**
- **Red is a very important colour during the festival as it is believed to symbolise good luck, happiness, and prosperity for the coming year.**
- **Children often receive 'hongbao', which are special red envelopes containing money, given by elders to wish the young ones health and success.**
- **The Chinese Zodiac follows a 12-year cycle, with each year represented by a different animal, such as the Dragon, the Rabbit, or the Tiger.**

Did you know? Did you know? Chinese New Year is not just one day! The celebrations last for 15 days, finishing with a beautiful Lantern Festival under the light of the first full moon of the lunar year.
