Max’s Magical Number Bonds

Max the Monkey's Guide: Make 100 in a Flash!

- **Number bonds are pairs of numbers that add together to make a set total, like 10 or 100.**
- **To find a missing bond for 100, subtract the number you have from 100.**
- **If you have 40, your partner bond to make 100 is 60, because 40 + 60 = 100.**
- **Number bonds help you solve math puzzles quickly without needing to count on your fingers.**
- **Always look for the tens digit first! If the first digit is 20, you need 80 more to reach the 100 target.**

Did you know? Did you know? If you know your number bonds to 10, you are already an expert at bonds to 100! For example, because 3 + 7 = 10, then 30 + 70 = 100. It is just like adding a 'zero' friend to the end of each number!
