Exploring South America with Finn the Dolphin

Dive into discovery! Join Finn on a journey across the continent of South America.

- **South America is a vast continent located mostly in the Southern Hemisphere, bordered by the Pacific and Atlantic Oceans.**
- **The Andes is the longest mountain range in the world and runs along the entire western edge of the continent.**
- **The Equator passes through the northern part of South America, meaning many countries there have a hot, tropical climate all year round.**
- **There are twelve independent countries in South America, including Brazil, Argentina, Peru, and Chile.**
- **South America is home to incredible biodiversity, including unique animals like the llama, the jaguar, and the giant river otter.**

Did you know? Did you know? The Amazon River is the second longest river in the world, and it flows through the largest tropical rainforest on Earth, which produces a huge amount of the world's oxygen!
