# Zara's Abstract Art Adventure

*Learning objective: I can explain what abstract art is and identify different elements like shape, line, and colour.*

*About 15 minutes. Grown-up tip: Ask your child to find patterns in their clothes or around the house to see how art exists everywhere.*

Read the term on the front of the card. Think about how Zara would describe it, then check the back for the answer. Example: If the front says 'Colour', the answer is 'A way to show mood or feeling in art.'

|---|---|
| **What is Abstract Art?** | Art that does not look like real objects but uses shapes and colours to show ideas. |
| **What are geometric shapes?** | Shapes with straight edges like squares, rectangles, and triangles. |
| **What are organic shapes?** | Shapes that look curvy and natural, like a leaf or a cloud. |
| **How can lines be used in art?** | Lines can be thick, thin, wavy, or zig-zag to show movement. |
| **What is a primary colour?** | The three main colours: red, yellow, and blue. |
| **What is a secondary colour?** | A colour made by mixing two primary colours, like green, orange, or purple. |
| **What is a pattern?** | A repeated shape, line, or colour across an artwork. |
| **Can abstract art show a feeling?** | Yes, an artist can use bright colours for happiness or dark colours for sadness. |
| **What is a texture in art?** | How a surface looks or feels, like rough, smooth, or bumpy. |
| **Why do artists make abstract art?** | To express their imagination instead of copying exactly what they see. |
