Kit’s Clever Online Safety Guide

Learning objective: I can identify how to stay safe and kind when using the internet.

About 15 minutes. Grown-up tip: Please read these cards with your child to discuss their online habits in a calm and supportive way.

Read the term on the front of the card. Think about how to stay safe online, then flip the card to check your answer. Example: What is a password? | Answer: A secret code that keeps your private accounts safe.

What should you do if something online makes you feel sad or worried?	Tell a trusted adult, like a teacher or a parent, straight away.
What is a 'personal detail' you should never share online?	Your full name, home address, school name, or phone number.
True or False: It is okay to share your password with your best friend.	False. Passwords should be kept secret from everyone except your parents.
What does it mean to be 'kind' online?	Treating people with respect and not saying anything you wouldn't say to their face.
What is the best way to keep your accounts safe?	Use a strong, long password that is hard for others to guess.
Who is a 'trusted adult'?	A grown-up you know well who listens to you and helps keep you safe.
What should you do if you receive a message from someone you don't know?	Do not reply, close the message, and tell a trusted adult.
What is a 'digital footprint'?	The permanent trail of information you leave behind when you use the internet.
Why should you ask a parent before downloading a new app?	To make sure the app is safe, age-appropriate, and not a scam.
If you see something mean online, what is the best thing to do?	Use the report button or tell an adult instead of replying.
