Kit’s Clever Guide to Staying Safe Online

About 15 minutes. Grown-up tip: Please read this poster with your child and talk about who their 'trusted adults' are at home and at school.

Follow these golden rules whenever you go online. For example, if a website asks for your home address, remember: keep it private and tell a trusted adult immediately.

- **Keep your personal information private, such as your full name, home address, or the name of your school.**
- **Create a strong password that you do not share with anyone except your parents or carers.**
- **If you see something online that makes you feel sad, worried, or confused, always tell a trusted adult.**
- **Always be kind to others online, just as you would in the playground at break time.**
- **Check with an adult before you download a new game or click on a link you do not know.**

> *Did you know? Did you know? The internet is a massive network of computers all around the world, linked together like a giant, invisible spiderweb of information!*

Key vocabulary: Password · Personal Information · Trusted Adult · Report · Kindness
