Rosa's Robot Body Builder

Learning objective: I can name parts of the body in French.

About 15 minutes. Grown-up tip: Practise saying the words aloud together to help with the French pronunciation.

Rosa the parrot is building a friendly robot! Use the word bank to label the robot's body parts in French. Remember, 'le' is for masculine words and 'la' is for feminine words.

Example: If the label points to the head, write 'la tête'.

Word bank: la tête (la TET) - head · le bras (luh BRAH) - arm · la main (la MAN) - hand · la jambe (la ZHAMB) - leg · le pied (luh PYAY) - foot

1. 1. Pointing to the top circle (the head): _____ (1 mark)

2. 2. Pointing to the long side piece (the arm): _____ (1 mark)

3. 3. Pointing to the end of the arm (the hand): _____ (1 mark)

4. 4. Pointing to the long bottom piece (the leg): _____ (1 mark)

5. 5. Pointing to the very bottom piece (the foot): _____ (1 mark)

Draw: An outline drawing of a friendly robot made of basic shapes. There are clear lines pointing to the head, one arm, one hand, one leg, and one foot.

Extension challenge: Can you draw your own robot and label two more parts? Try finding the French words for 'eye' (l'oeil) or 'nose' (le nez) in a dictionary!

I did it! Name: _____ Date: _____
