Working: The instructions state 'la' is for feminine words.

Award 1 mark for the correct answer.

10. les yeux (1 mark)

Working: Refer to the word bank provided in the worksheet.

Award 1 mark for the correct spelling.

What a secure answer looks like

A secure learner can correctly identify the gender of the noun and match it with the appropriate article (le/la). They should be able to recall the vocabulary from the provided word bank.

If your child is stuck

Ask the child to look back at the word bank and say the words out loud while pointing to the body part. Remind them that 'le' is for boys (masculine) and 'la' is for girls (feminine).

Common mistakes to watch for

Children often mix up 'le' and 'la' because they try to translate the gender from English, or they may forget that 'les' is used for plural items like eyes.
