Rosa's Healthy Body Challenge

Learning objective: I can identify and use French vocabulary to describe parts of the human body.

About 15 minutes. Grown-up tip: Encourage your child to touch the body part as they say the French word out loud to help them remember.

Rosa the parrot is learning about human biology! Match the French body part word from the word bank to the correct English definition. Then, use the words to fill in the missing gaps in Rosa's sentences.

Example: 'La tête' means 'the head'.
Sentence: J'ai mal à la tête. (I have a headache.)

Word bank: la tête (la TET) - head · les yeux (lay ZYUH) - eyes · le nez (luh NAY) - nose · la bouche (la BOOSH) - mouth · les mains (lay MAH) - hands · le pied (luh PYAY) - foot

1. 1. Match the French word 'le nez' to its English meaning. (1 mark)

2. 2. Translate 'les mains' into English. (1 mark)

3. 3. Fill in the blank: J'ai deux _____ (eyes). (1 mark)

4. 4. Fill in the blank: Je mange avec la _____ (mouth). (1 mark)

5. 5. Rosa says: 'J'ai mal au pied.' Based on your word bank, which part of her body hurts? (2 marks)

Draw: A friendly, colourful illustration of Rosa the parrot standing next to a simple, labelled outline of a human body showing the head, nose, mouth, hands, and feet.

Extension challenge: Can you write a French sentence using 'J'ai...' (I have...) to describe two of your body parts? Remember to use 'les' for plural items like eyes or hands.

I did it! Name: _____ Date: _____
